Most sports party guests will consume two drinks during the first hour of your event and one drink during each following hour. When planning a party serving wine, beer and spirits, the general rule of thumb is that:

- **30% will prefer WINE**
- **50% will prefer BEER**
- **20% will prefer MIXED DRINKS**

If you do not anticipate serving mixed drinks at your event, then you should plan on 60% of your guests consuming beer and 40% wine.

Don't forget to designate a driver!!
